

## Create your own animation or movie with the latest Nimzy Animator debuted by Digital Info Technology.

Ever wonder how an animation is done? Or better still, create your own? With Nimzy Animator, you can now create your very own animation or movie within minutes. A webcam, a windows PC and Nimzy Animator software are all you need!

Nimzy Animator allows you to capture an object image one frame at a time, make a slight movement of the object and capture another frame. Repeat this for several times and you create the illusion of motion!

### Promote Creativity

Nimzy Animator can be used as an educational tool kit which inspires and encourages the development of creativity among children or the young at heart.

### Promote Interaction

It's fun and easy to create animation with your family, friends, colleagues or classmates. Enjoy the moment spent together having fun!

### Content Creation

The possibilities are endless as to what you can animate. Animate virtually anything that you can think of; toys, clay figures, drawings, paintings, puppets, plants, or even human.

### Bringing People Together

Creativity transcends age which is what Nimzy Animator does. It evokes creativity regardless of age and unites people, young and old together.

## FEATURES

### User Friendly Interface

Extremely user friendly interface with easy menu navigation.

### Affordable Animating Solution

An affordable and fun animation solution that is suitable for anyone regardless of age.

### Frame capturing made easy

Monitor and capture each frame of your object easily with the use of a webcam. No heavy weight movie film camera is required.
