## **Digital Info Technology (DIT) unveils Nimzy Flexcam BCR8800, an ultra-compact and powerful INTELLIGENT Webcam that snaps and recognizes name cards**

You've never seen anything like the unique combination of function and form in a webcam.

A cut above the rest, with the conventional functions of a webcam, Nimzy Flexcam BCR8800 features the most powerful technology to snap, capture and recognise information on business cards!

With the Artificial Intelligent software, information on the business cards are automatically interpreted, categorised and stored instantaneously. Retrieving information is a breeze with any keyword.

Offering a TRUE 1.3 Megapixels CMOS sensor, Nimzy Flexcam BCR8800 provides superior quality images and video performance even in low light situations.

### **FEATURES**

#### **TRUE 1.3 Megapixels CMOS sensor**

Captures finer, sharper and more accurate details like never before.

#### **High Image Resolution**

View your subject more clearly with the superior still image quality of 1280 x 1024 pixels; video image quality of 640 x 480 pixels.

#### **Low Distortion even in Low light condition**

Obtain crisp still and motion images with distortions being reduced to the minimum.

#### **Ability to recognise business cards information**

So intelligent, it snaps and recognise information on business cards.

#### **Efficient management of Business cards**

Store and manage business cards information from your computer and search using any keyword.

#### **Compact and Ultra Light**

Create for the mobile lifestyle, small, light and extremely portable.
