

NIMZY VIBRO BLASTER

The amazing new Nimzy Vibro Blaster turns flat surface into a speaker. Hear to believe!

So compact and portable, this amazing small wonder, turns flat surface into a speaker! With Nimzy Vibro Blaster, bulky speakers become a thing of the past.

Utilizing a patented electro acoustic technology, Nimzy Vibro Blaster transforms sonic signals into sonic mechanical vibrations to produce sound. Boasting better sound quality, it transmits clear sound or music through any flat object, be it wood, plastic or glass.

Attach it to your laptop, MP3 player or any audio devices, Nimzy Vibro Blaster serves as an alternative to earphones or conventional speakers whereby quality of sound is often dependent on the size of speakers.

Now, enter a new dimension in sound and music with Nimzy Vibro Blaster!

FEATURES

Compact and Portable

Highly portable, pack-and-go size. Do away with bulkiness without compromising on sound quality.

Flexibility

Place sound or music virtually anywhere. All you need is a flat surface.

Durability

Designed for durability with its temperature resistant (below 100°C) features.

User Friendly

Easy to use. Simply connect to laptop or any audio devices and you have it! Clear, good quality sound!
