

VB BlueTooth

Explorner Pte Ltd debuts the new & powerful VB Bluetooth Mini Speaker that transform flat surface into a speaker. Be amazed!

Place the innocent looking cube on flat surface and be amazed at what it can do! Connected to any sound source be it MP3 player, laptops, handphone with A2DP Technology, the VB Bluetooth turns the flat surface into a speaker without having to connect a single wire.

You will enjoy the splendid sound effect from different materials. Try different furniture material of your table, cabinet, glass and turn it into huge speaker.

Designed to go beyond conventional speaker technology, the VB Bluetooth uses an advance patented electro acoustic technology, projecting audio vibrations on to solid surface to produce sound. Crystal clear sound is produced through hard surface like wood, plastic or glass.

Integrating digital amplifier, volume control and on/off buttons all in one tiny cube, the VB Bluetooth is more powerful than any of its precedent. It comes with a handy slim remote control with adjustable bass, treble and volume.

Exuding an air of elegance, VB Bluetooth is aluminum alloy encrusted and is available in both black and white

The Technology Behind

VB Bluetooth is composed of Giant Magnetostrictive material which is an alloy mainly composed of terbium, dysprosium and pure iron. It has the ability to generate great magnetostrictive force as they expand and contract under a magnetic field. When a magnetic field is applied, it provides proportional and repetitive expansion in microseconds.

When placed on hard surface such as wood, glass, plastic or acrylic, it projects the vibration to the surface to produce TRUE sound in any frequency.

FEATURES

The top non-wire vibrating speaker. Up-to-date digital vibrating mini sounder:

- Up to date Bluetooth A2DP technology which stream songs 30 ft away.
- 360 degree sound field
- Come with built in huge powerful lithium battery that lasts longer of up to 4.5 hours
- The central core material of the VB Bluetooth, modulate the bass and treble to produce good sound effect on different surface.
- Remote controller with full functions all in your hand
- The direction light shows the status of battery charging.
- Adopt the world high-tech vibration technology, make the sound effect improve 50%, which produce your splendid sound.
- The standard 3.5mm audio line connect any music source.
- Built in digital amplifier which modulate bass and treble at 14 db

APPLICATIONS

With its portability, VB Bluetooth can be used in many locations. Be it a presentation in the conference room or simply playing your favourite music in the living room.

Specifications for VB Bluetooth Mini Speaker:

Impedance	8 Ohms
Frequency Range	70 Hz - 20,000 KHz
Rated power	25W (RMS)
Measurement	95(L) x 84(W) x 48(H) mm
Weight	1050g
