

VR Ping Pong

Explorner Pte Ltd debuts the new virtual reality sport for TV game enthusiasts. Be amazed that you are playing a virtual table tennis sport without having to step out of your house to go to a sports hall and play your favorite sport. This virtual table tennis can be just as real as you play your actual game and because it is an electronic simulation you can feel that you are exercising as well.

This Interface include three games options:

- Game Mode
- Knocks Exercise
- Smash Exercise

After entering the Game Mode, it will appear three different type of players options:

- 1P VS COM
- 1P VS 2P
- 1P / 2P VS COM

After entering a player option you can select three different levels of skill:

- Easy
- Normal
- Hard

After you have entered a Game Skill levels option you can select three different scoring modes:

- 21 Point Match
- 11 Point Match
- 5 Point Match

The ping-pong game machine at present adopted the most advanced CPU and infra red rays technique. It is easy to use as well. Just connect the controller directly to the TV and you can play right away.
