

VR Table Tennis & Boxing (2 in 1 system)

Explorner Pte Ltd debuts the new virtual reality sport for TV game enthusiasts. Be amazed that you are playing a boxing sport without having to step out of your house to go to a boxing ring and play your favorite sport. This virtual boxing can be played just as real as you played your actual game and because it is an electronic simulation you can feel that you are exercising as well. As this is a 2 in 1 system, it also comes with the table tennis sport game.

This Interface has a Game Player Scene

Player Scene: This interface included two players. This scene will show all information of game players:

- NAME
- COUNTRY,
- AGE,
- STATURE
- WEIGHT.

The boxing sport machine at present adopted the most advanced CPU and infra red rays technique. It is easy to use as well. Just connect the controller directly to the TV and you can play right away.
