

VR Tennis

Explorner Pte Ltd debuts the new virtual reality sport for TV game enthusiasts. Be amazed that you are playing a virtual tennis sport without having to step out of your house to go to a tennis field and play your favorite sport. This virtual tennis can be played just as real as you played your actual game and because it is an electronic simulation you can feel that you are exercising as well.

This Interface has two options: **SELECT OPPONENT & SELECT LEVEL**

SELECT OPPONENT: Player can select four kinds of character. The screen will show their Nationality and Technique type:

SELECT LEVEL: There are three different levels for your choice:

EASY
NOMAL
HARD.

After you have finished **LEVEL** selection, press **START** button to enter next interface. There are two options: **SELECT COURT & SELECT SET COUNT.**

SELECT COURT: There are three types of place you can choose:

LAWN,
HARD,
CLAY.

It will shown you the differences of three types of place on screen

SELECT SET COUNT: There are three kinds of game for the player choice: they are:

1 SET
3 SET
5 SET

The tennis sport machine at present adopted the most advanced **CPU** and infra red rays technique. It is easy to use as well. Just connect the controller directly to the TV and you can play right away.
